Subject: Move from Florida to NH

To all the staff that I dealt with--Michelle, Ken, Don and Theresa and their crew in Florida, Jose and his crew in NH.

I recently sold my parents home in Florida and had to have the contents moved to my home in New Hampshire. I chose Ray the Mover because it is local and has been in business for many years. From the onset every person I was in contact was professional, very helpful and gave me all the time I needed to answer all questions I had.

Everyone was up-front about costs, how they are calculated and the best part was there are no hidden gimmicks and no "oops we forgot to tell you about extras upon delivery". Further, all were so very pleasant and a pleasure to deal with. From the pick-up in Florida to the delivery in NH. everything went like clockwork. They accommodated our schedule, arrived when they said they would be there and every piece of furniture, no matter how small or large was inventoried. Before departure from Florida they provided a walk-thru to assure everything that was being shipped was taken and loaded on the truck.

The delivery of the furniture was equally stress free. The awesome part---every piece of anything that was shipped arrived in-tact, no chips, no dents, no breakage. We are so pleased that you completed this task for us in such a wonderful manner. Wish all businesses followed your lead when it comes to moving peoples personal belongings.

Thank you all for such a great, stress-free and carefree move.
